# ADAPTATION PLANNING FOR COASTAL COMMUNITIES

Coastal communities increasingly realize the need for adaptation strategies, but many are unsure where to begin. In this two-day training, you will gain a thorough grounding and practical skills for incorporating adaptation strategies into planning processes. Time in class is provided to practice applying what you learn, and opportunities for local collaboration and next steps are emphasized through discussion, participant activities, and local speakers and examples.

**April 7-8, 2020**

**BUCKWALTER RECREATION CENTER**
